REDUCE YOUR GLOBAL ADJUSTMENT CHARGES

Mann Engineering specializes in energy management and utility cost savings. One of the biggest electricity costs for medium and large consumers is the **GLOBAL ADJUSTMENT CHARGE**. While this charge may seem unavoidable, Mann Engineering has helped several clients implement targeted energy saving retrofits and electricity demand curtailment automation. This has helped one client avoid over \$1,000,000 in **GLOBAL ADJUSTMENT CHARGES**. Mann Engineering has partnered with a leading expert in the Ontario electricity market to provide automated curtailment to reduce electricity demand and shift electricity demand to non-critical and “off-peak” times. You won’t have to do anything, except watch your costs drop!

Find out how you can reduce your **GLOBAL ADJUSTMENT CHARGES** and take control of your energy bills today.

IF YOUR BUILDING ELECTRICAL DEMAND IS
BETWEEN 1MW AND 5MW, YOU HAVE A HUGE
OPPORTUNITY TO SAVE \$\$\$

DID YOU KNOW THAT YOUR BUILDING'S PEAK DEMAND READINGS DETERMINE YOUR BILL FOR NEXT YEAR?

- TORONTO
- LONDON
- KITCHENER
- BARRIE
- KINGSTON
- OTTAWA

Mann Engineering is your ONE STOP SHOP for taking control of your energy bills and reducing your **GLOBAL ADJUSTMENT CHARGES**. Mann Engineering provides feasibility studies, engineering design, construction, automation programming, system commissioning, and maintenance and monitoring services.

We use our three-pronged approach to reducing electricity bills for lasting savings. We target:

1. DEMAND (KW)
2. CONSUMPTION (KWH)
3. GLOBAL ADJUSTMENT

OTHER SERVICES WE OFFER:

Mechanical Engineering

Electrical Engineering

Boiler Retrofits

Chiller/Cooling Towers Retrofits

Lighting Retrofits

Building Automation Systems

Variable Frequency Drives

Co-generation (CHP)

Solar Energy

Geothermal Energy

Reserve Fund Studies

LEED Certification
